Jorge Luis Borges

Egy maoskához

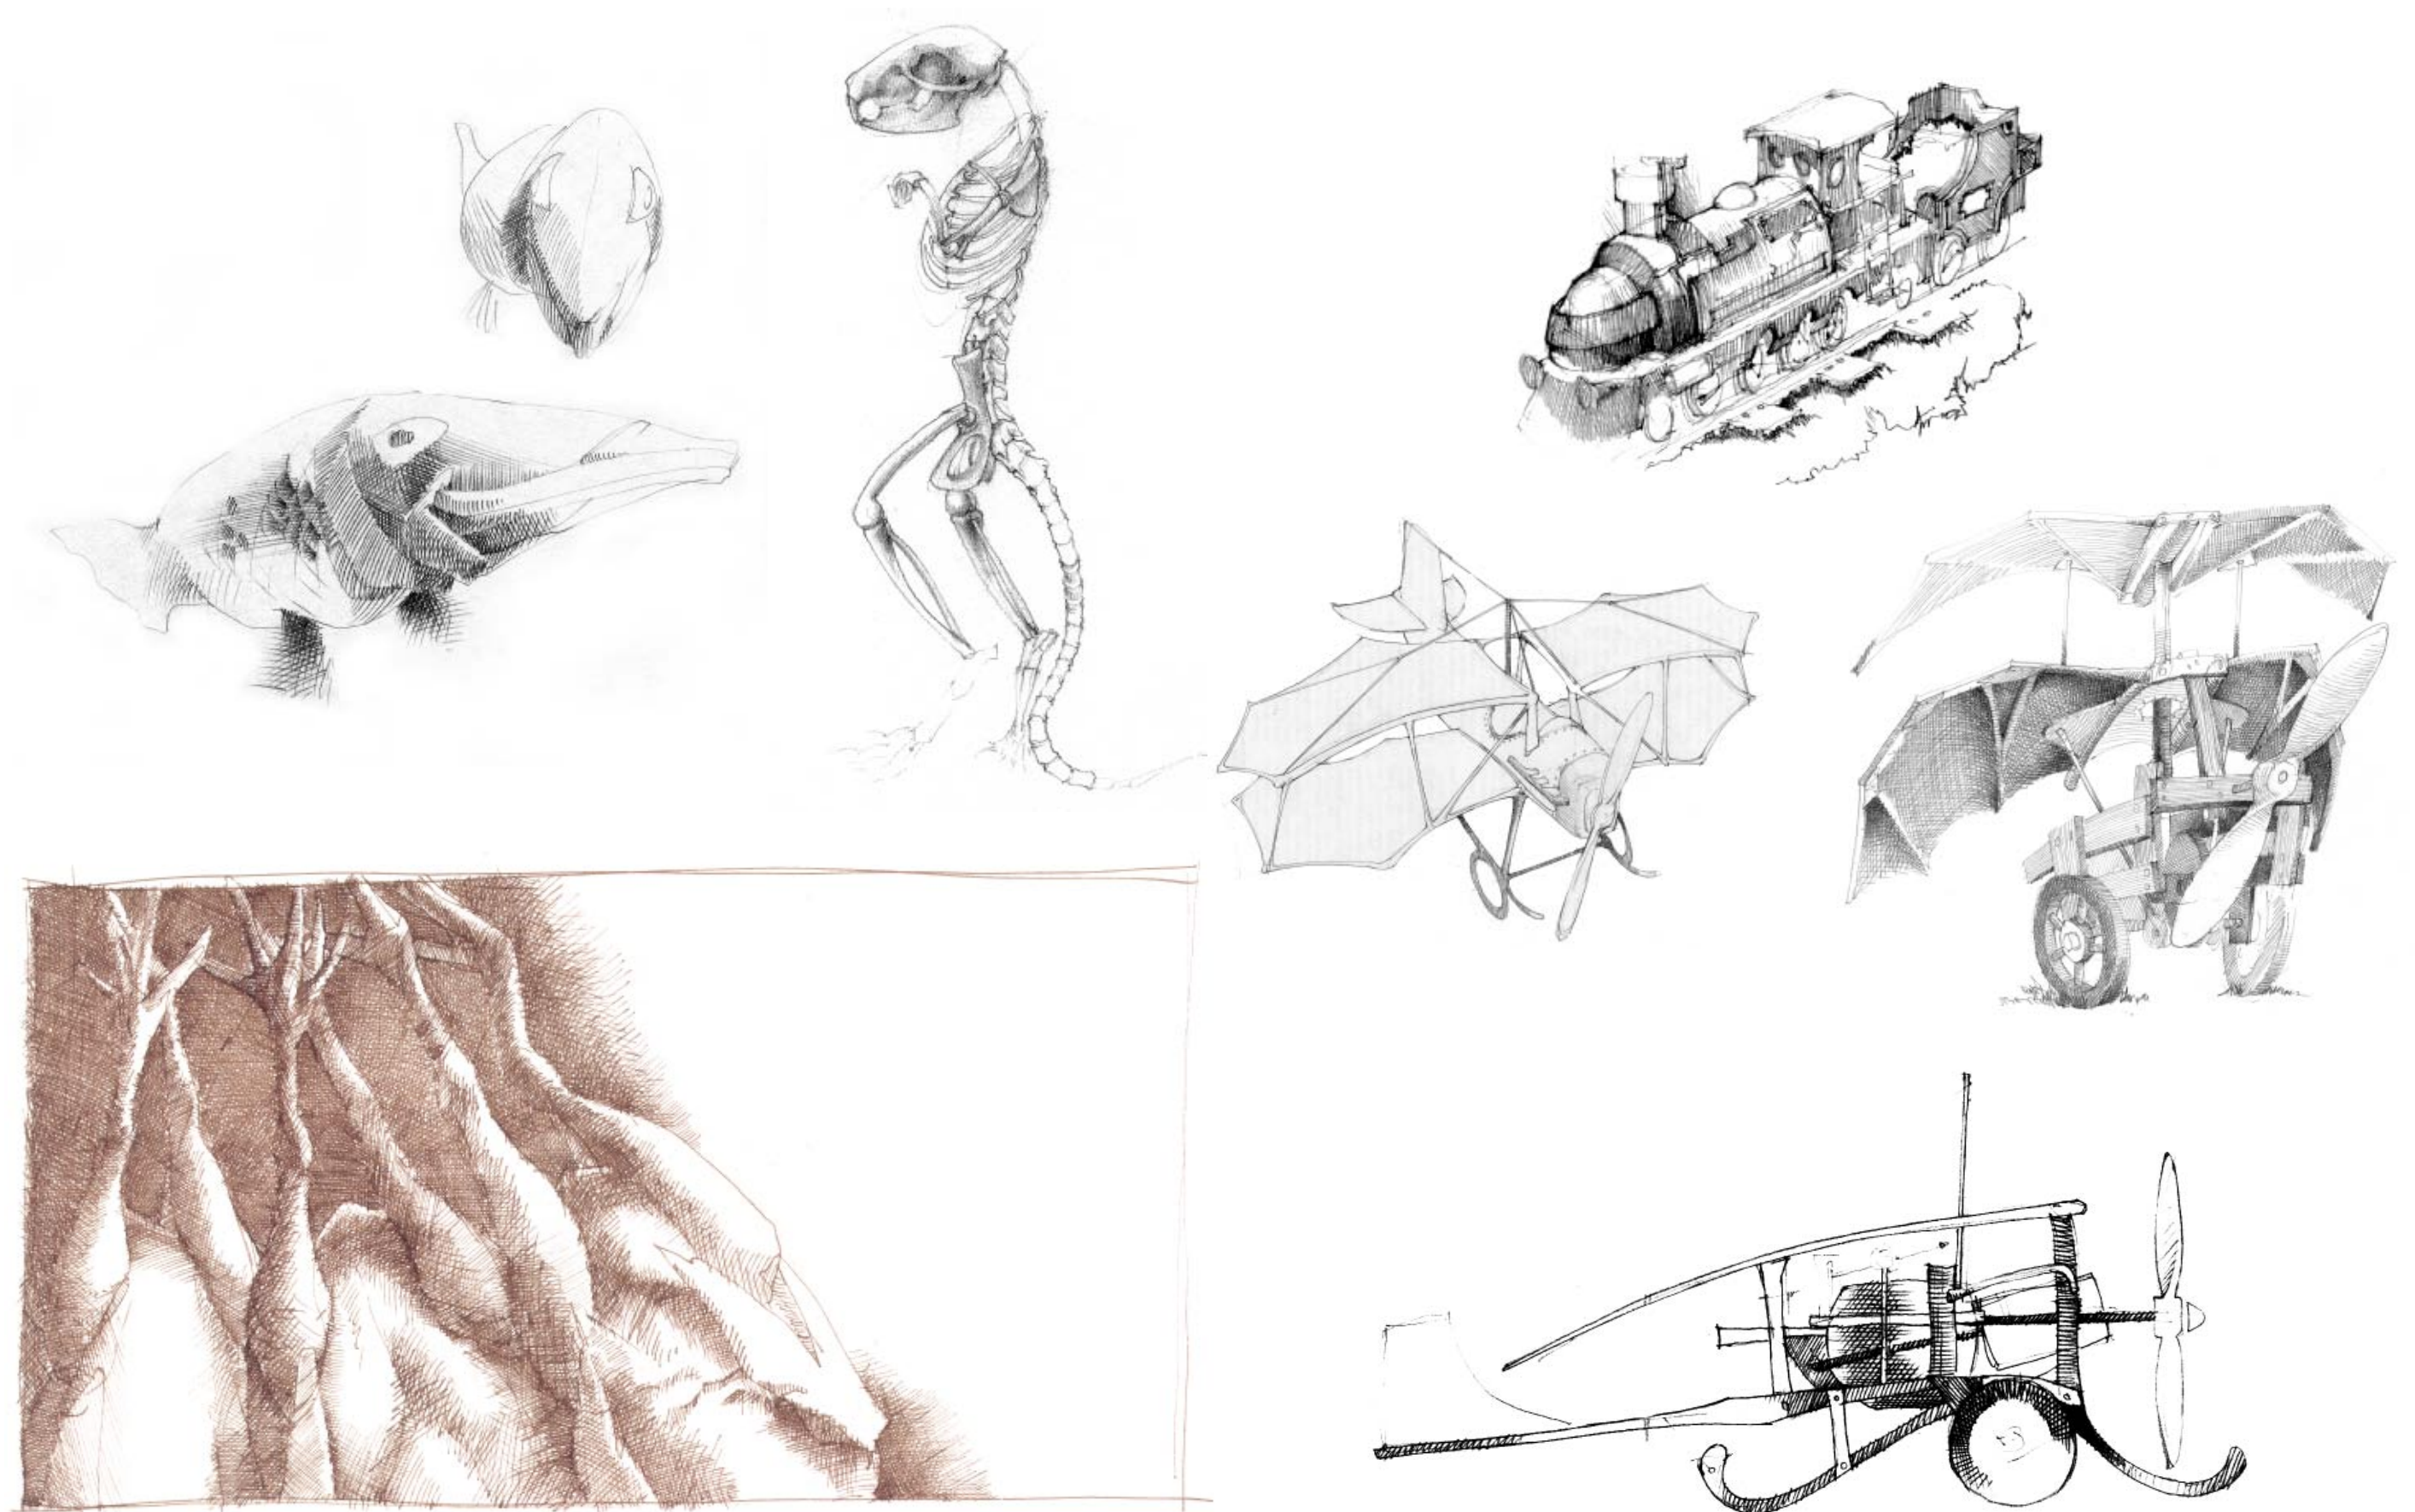

A tükröt nem lehetett cönoscere,
 a kőre hajnal nem oson puhaltam,
 az a párdue vagy te a holdszögletben,
 kit az ár titkos távolból lehetett meg.
 Valamely titkos ég; rendeltetél
 fogva, nemmiat látni is keszve,
 nemmiat, mint a gárgosz s a naplemente,
 te vagy a magam és te vagy a sejtély.
 Becsés keremnek minden enged
 látad. Ég feledésbe ment ötletet
 óta éke vagy magad átadni oként
 a kerestől sugárzó, szeretőt.
 Már időlen tén. Vagy lát kataron —
 egy onkái, mely edet, mint az álm.
